Newton's Lawyer Hopes for Settlement of Client's Claim.

By Associated Press.  
NEW YORK, Dec. 12.—Andrew Carnegie has been summoned to Cleveland, O., as a witness in the Chadwick case Wednesday, before the United States grand jury.

By Associated Press.  
CLEVELAND, O., Dec. 12.—It is not the intention of the prosecutor to indict any one but Mrs. Chadwick. It is not believed she had any accomplices, but that she prepared the Carnegie agreement herself.

The grand jury has begun an investigation of the matter.

The prosecutor hopes to get an indictment for forgery.

New York, Dec. 12.—The World yesterday said that Dr. Leroy S. Chadwick, husband of Mrs. Cassie L. Chadwick, was interviewed by its correspondent in a Paris hotel. The interview according to the World, includes the following:

"Did you leave America because you knew that the transactions charged against your wife were about to be ventilated?"

"No, I had not the slightest intimation that my wife had any such business connections."

"All these accusations came as a horrible shock. But after all, I knew only what I read in the newspapers."

"Have you any idea why your wife used Andrew Carnegie's name instead of that of some other immensely wealthy man, such as Rockefeller or Morgan? Does she know Mr. Carnegie?"

"As far as I know she does not know the famous Carnegie and has never met him. But I believe she simply negotiated paper which she believed to be good."

The correspondent describes Dr. Chadwick as a young looking man, whom he saw by appointment. The doctor, according to the story, asked the correspondent not to give the name of the hotel at which he was stopping.

## SHOT

Dole Parker, a Young Man, Was Shot and Probably

Fatally Injured by Lee Dodd at Pinnickin-nick Mines

Monday Morning. Two Bullets Pierced the Victim's Body

And He is in a Serious Condition. He is Now in

Harrison County Hospital, and Dodd is in Jail.

A most deplorable shooting occurred in the engine room at the Pinnickin-nick mines Monday morning at 6:45 o'clock.

As a result of the shooting, Dale Parker, a young man 16 years of age, is in the Harrison County Hospital severely wounded, and Lee Dodd is behind the bars in the county jail.

The trouble occurred when the young men met in the boiler room just before going to work. Dodd accused Parker of having gone to his door the night before and knocking upon the same and also that he had committed the offense on divers occasions. Parker denied the charge and before it was ended, Dodd drew a 38-caliber revolver and fired its contents at Parker. Three shots went wild but two of them pierced the body of his victim.

Parker was taken to the Harrison County Hospital at once and an examination revealed the fact that one ball found lodgment in the right thigh and the other entered the body just below the right shoulder blade, was deflected upwards, passing through the right lung, lodging just beneath the skin at the base of the neck. This bullet was removed by the attending physicians, but the ball that found lodgment in the thigh has not yet been recovered.

Parker was an employee of the Fairmont Coal Company and is the son of Joe Parker, a well known citizen of Fairmont. The young man bears a good reputation and all who are acquainted with him, maintain that the shooting was a foul and uncalled for act on the part of Dodd. Everything possible is being done at the hospital for the young man and while it is feared that he will not recover, still his injuries are not necessarily fatal.

Soon after the shooting occurred Dodd was arrested by Detective Hode Stewart and was placed in the county jail to await the result of Parker's wounds.
